

Plugin for RPG Maker MZ

Boss HP Gauge Plugin Ver.1.0.1

This plugin displays a boss gauge during battles.

If multiple bosses are present, multiple gauges will be displayed.

When a boss is defeated, its gauge will disappear.

It is also possible to display them in a single horizontal row.

How to Configure

Set this enemy to be recognized as a boss

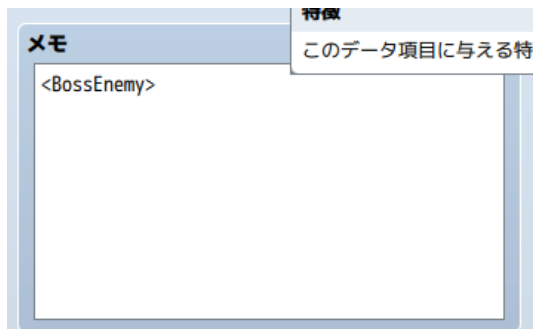

If the boss has a disappearing effect as a characteristic.

Or add the following tag to the enemy's note field.

Enemy Note Field

<BossEnemy>

Show an HP gauge for boss enemies

Plugin Parameters

- Gauge position

Specify the position of the gauge.
